- have long-term investment horizon.

**KEY PRODUCT FEATURES**

**WHAT ARE YOU INVESTING IN?**

You are investing in a feeder fund which seeks to provide investors with capital appreciation in the long term.

Refer to “Fund Objective” in the “Fund Information” section of the Fund’s Prospectus.

**Investment Strategy**

The Fund will be investing a minimum of 85% of the Fund’s NAV in the Target Fund and a maximum of 15% of the Fund’s NAV in money market instruments, deposits and/or cash.

The Target Fund aims to generate total returns in line with Asia Pacific ex Japan equity markets, via a combination of capital growth and income, but with lower volatility. The Target Fund will invest primarily\* in equities and equity-related instruments of companies which are incorporated in, listed in, or have their area of primary activity in the Asia Pacific ex-Japan region. The Target Fund may also invest in depository receipts including ADRs and GDRs, debt securities convertible into common shares, preference shares and warrants.

We may substitute the Target Fund with another fund that has similar investment objective with the Fund, if, in our opinion, the Target Fund no longer meets the Fund’s objective. However, this is subject to the Unit Holder’s approval before such changes are made.

The Fund may enter into derivative instruments only for hedging purposes. For example, the Fund may employ currency hedging strategies to hedge the foreign currency exposure to manage the currency risk of the Classes not denominated in the base currency of the Fund.

\*“primarily” refers to at least 66% of the assets of the Target Fund.

Refer to “Investment Strategy” in the “Fund Information” section of the Fund’s Prospectus.

<b>Possible Outcomes of Investing in the Fund</b>	
Investment involves risk and different types of unit trust funds carry different levels of risk. The value of the Fund and its distributions (if any) may rise or fall. These risk factors, among others, may cause you to lose some or all of your investment.	Refer to "Risk Factors" in the "Fund Information" section of the Fund's Prospectus.
<b>KEY RISKS</b>	
<b>WHAT ARE THE KEY RISKS ASSOCIATED WITH THE FUND?</b>	Refer to "Risk Factors" in the "Fund Information" section of the Fund's Prospectus.
<b>Specific risks when investing in the Fund</b>	
<b>Collective investment scheme risk</b>	
Any adverse effect on the CIS which the Fund is investing in will impact the NAV of the Fund as the NAV of the Fund is dependent on the performance of the CIS.	
<b>Country risk</b>	
The Fund may be affected by risks specific to the countries in which it invests. Such risks may be caused by but not limited to changes in the country's economic fundamentals, social and political stability, currency movements and foreign investment policies. These factors may have an impact on the prices of the Fund's investment in that country and consequently may also affect the Fund's NAV.	

<b>Currency risk</b>
As the investments of the Fund may be denominated in currency other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currency in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currency in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.
<b>Derivatives risk</b>
The Manager may invest in financial derivative instruments for the purpose of hedging. Financial derivative instruments' market values may be subject to wide fluctuations and expose the Fund to potential gains and losses due to mark-to-market value. Some of the risks associated with financial derivative instruments are, but not limited to, market risk, counterparty risk, and liquidity risk.
<b>Fund management of CIS risk</b>
While the Manager will exercise due skill and care in selecting the underlying CIS, it does not have control over the management of the underlying CIS which the Fund is investing in and there is no guarantee that the investment objective of the underlying CIS will be met. This may result in the NAV of the underlying CIS to be adversely affected.
<b>Liquidity risk</b>
Liquidity risk in the context of this Fund is associated with the Target Fund's ability to meet the Fund's redemption request in a timely manner. If the Target Fund fails to meet the Fund's redemption request, it may jeopardize the Fund's ability to meet its own Unit Holders' request.
<b>Related party transaction risk</b>
The Fund may invest in CIS of the Manager or other asset management companies which are related to the Manager and may also have dealings with parties related to these companies. However, all transactions with related parties are to be executed on terms which are best available to the Fund and based on best execution and at arms-length transaction between independent parties.
<b>Suspension of redemption request risk</b>
The Manager may, in consultation with the Trustee and having considered the interests of Unit Holders, suspend the dealing in Units of the Fund, when the Target Fund is suspended, as stipulated under "Suspension Policy of the Target Fund" in the "Information in relation to the Target Fund" section of the Fund's Prospectus. No application will be dealt with when the suspension of dealing of Units is triggered and this will limit the Unit Holders' right to freely redeem their Units in the Fund.
<b>Specific risks associated with the Target Fund</b>
<ul style="list-style-type: none"> <li>• Concentration risk</li> <li>• Derivatives risk</li> <li>• Foreign currency/ exchange risk</li> <li>• Specific risk considerations in relation to low volatility securities</li> <li>• Volatility and liquidity risk</li> </ul>
<b>These risks are elaborated in the Fund's Prospectus</b>

Please be advised that if you invest in Units through an Institutional Unit Trust Scheme Adviser (IUTA) which adopts the nominee system of ownership, you would not be considered to be a Unit Holder under the deed of the Fund and you may, consequently, not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder's Meeting and to vote thereat and the right to have your particulars appearing in the register of Unit Holders of the Fund).
